INSTRUCTION MANUAL

LEGAL NOTICE

This project is not affiliated with Hasbro nor any of its subsidiaries. *My Little Karaoke: Singing is Magic* was made by fans, for fans, with no profits.

My Little Pony is a registered trademark owned by Hasbro.

My Little Karaoke: Singing is Magic uses various assets collected from a number of sources. For a complete listing, please refer to the official website. The game runs on the *UltraStar Deluxe* engine by default, published under the GPL General Public License v2.

HEALTH WARNING

Horses should not play this game, they may get epileptic seizures. Avoid playing this game if horses are present. Colorful pastel ponies usually are immune to such effect, but proceed with caution.

PIRACY

Do what you want, 'cause a pirate is free; you are a pirate. You're very welcome to redistribute this game and share it with your friends and other fans of the show.

SOFTWARE UPDATES

For more information, please refer to the official site.

PARENTAL GUIDANCE

While the vast majority of the included songs contains no profanity, some might have explicit lyrics. Also, be aware that some of the ponies are crazy; think of the children.

♥ CREDITS

♥ PRODUCER

Guillaume "Renard" Bernard

♥ MANE SONG TEAM

Smilley

♥ OTHER ASSETS

The My Little Karaoke project uses various artistic assets, and wish to thank the many artists who created them. The list would not fit in the game manual, though; please head to www.mylittlekaraoke.com for more information!

♥ SPECIAL THANKS

To Lauren Faust, who started it all, and to the entire *My Little Pony* show staff.

To all the artists whose creations are featured in the game, and to all who contributed to this project.

To you, for playing!

♥ PLAYING THE GAME

♥ GAME GOALS

Sing along the music to score points! **Lyrics and pitch** will be displayed on-screen; do your best to sing on key, and practice for best results!

The harder the difficulty, the more accurate you'll have to be.

♥ NAVIGATION

Use the ⬆⬅⬇➡ **keys** to navigate. Select an item with the `ENTER` **key**, cancel with the `ESC` **key**. A **gamepad** may be used, but tweaks are needed first; refer to the *UltraStar Deluxe* wiki for detailed information.

♥ NAMING THE PLAYERS

When starting a new game, you can rename the players simply by highlighting them and typing in a name. Scores will be saved accordingly.

♥ SONG SELECTION WHEEL TRICKS

- Press Ⓙ to search for a specific song
- Press Ⓡ for a random song
- Press Ⓜ for a menu that will allow you to create a playlist
- Press Ⓟ to access saved playlists

Dear player,

Thanks for your interest in our game! As a team who worked from all over the world during many sleepless nights, we are very grateful - and excited! - that you now have this release in your hands. We hope you enjoy playing it!

The My Little Karaoke project started about one year ago, as a fan tribute to the My Little Pony show. Our first goal was to include all official songs into a competitive singing rhythm game; it all started with the hit Winter Wrap Up, then expanded to both all available seasons and other languages.

Since the show first aired, the My Little Pony fan community grew huge - from developers, to artists, to charity managers, it is booming with creativity and enthusiasm. We hope to showcase a glimpse of it, with songs and artworks collected from more than 150 artists; we encourage you to explore beyond the game, and into the community, to find out more about its inventiveness.

*If you wish to help us keep the ball rolling and add more songs to the game, please visit our website!*

Yours faithfully,
The My Little Karaoke team

❤ INSTALLING THE GAME

Once the game is installed, you do not need the disc to launch it. You can install the game on as many computers as you wish and share the disc with your friends.

Windows install

1) Drop the application in the "Applications" folder.

UltraStarDeluxe → Applications

2) Launch the Songs & Themes installation

→ Install Songs&Themes ←

Mac OS X install

❤ WINDOWS USERS

As soon as the disc is inserted, a set-up prompt will appear on the screen. Simply click the *Install My Little Karaoke* button and follow the instructions to install the game.

❤ MAC OS X AND LINUX USERS

My Little Karaoke can be played on these systems too! On Mac OS X, take the application *UltraStarDeluxe* and drop it into the „Applications" folder. When you're done, launch the „Install Songs&Themes" file. It may take up to 10 minutes to finish. Now you're ready to play your game!

Linux users should install UltraStar Deluxe from their systems repositories, then manually copy the song files to the appropriate directory (usually ~/.ultrastardx/). It's easier and the engine will be automatically updated this way.
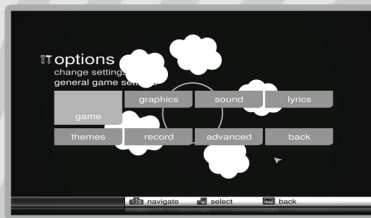

❤ OTHER SYSTEMS

"My Little Karaoke" uses the standardized Ultrastar song format. Look for compatible applications on your devices!

❤ ADDITIONAL CONTENT

To get more songs and updates, install the Additonal Content discs in order.
Click the "update" button, or check mylittlekaraoke.com regularly for new downloads.

❤ GAME CONFIGURATION

First things first! Take some time to configure the game, so it knows which microphones to use and how many players there are.

❤ GAME

This is where you set up the number of players and change the sorting options. **Up to 6 players** can play the game. Having more than 3 players will require an additional monitor as well as a few tweaks. Please refer to the UltraStar Deluxe wiki for more details. The sorting option **Sorting by folder** will allow you to see a specific My Little Karaoke directory when browsing the songs, if you happen to sing non-pony songs too.

❤ GRAPHICS

Make the game look good by selecting the appropriate **screen resolution** and **fullscreen** mode.

❤ LYRICS

Select the **lyrics style** here, according to your personal taste. We recommend the use of the **OLine2** font with a **slide** effect.

❤ RECORD

Important: this allows you to set up the microphones.
Select a **sound device**; then assign a channel to a **player number.** A single player can not be assigned to multiple sound cards.
